

Hello BEGA members,

We have been discussing travel options for the 2021 year and wanted to get a quick communication out to you for planning purposes.

Travel, restaurants, large crowds and overnight stays are still somewhat "risky" for our age group. While some of our members have started to get COVID vaccinations, many are still waiting to be vaccinated. Hopefully those that choose to be vaccinated will have done so well before the fall event in Perdido. After giving much thought to planning a Spring event, we have decided that it would not be prudent to travel at this time and we will start plans for a fall event.

We are tentatively looking at the first week of November for the Perdido trip but have not locked down dates as of today. Tentative dates are 11/1-11/7.

We will provide firm dates as soon as we get the courses booked.

Mike and Linda Pline
