

## Members:

As BEGA has transitioned to new software for our Handicap system to enter scores and run tournaments and leagues, it has provided us with some additional abilities to help the administrator's that work behind the scenes for the leagues and tournaments. Some of the updates include the following:

## PLAYERS:

- Allows players to access a list of the upcoming Tournaments and League play (Tuesday and Saturday Leagues at this time)
- Allows players to sign-up for Tournaments and League play online
- Allows players to record their Foursome's or Team's scores while playing the round.
- Provides a leaderboard to view during the round
- Convenient mobile access from your phone using the [GolfSoftware.com](https://www.golfsoftware.com) app available for both Android and Apple devices. After downloading the app, you will be prompted to enter your golf organization's website where you should enter [bestever.golfclub.net](https://bestever.golfclub.net) and then sign in as golfer using your normal GSID login.

## ADMINISTRATORS:

- Puts all the Tournament and League scoring in one place (Tuesday and Saturday Leagues at this time)
- Requires audit of scores input (Using the scorecards turned in to audit player scores input and resolving discrepancies)
- Allowing administrators to signup players as a list or by teams (Less work for Admins)
- Allows for the posting of scores by the Admins to the BEGA Handicap system and the GHIN handicap System for all players that participate in BEGA Events

These updates are being used and tested as we become more familiar with the software. Your help is greatly appreciated as we go forward. We welcome your feedback on using the new software. If you have question, please let us know.
