

We currently have 52 fully registered for the 4-day event. There are 5 people listed as partners for that group that I haven't received their registration yet. You have some grace period as I will not return from Ireland until Labor Day.

We have 2 folks only doing part of the warmup days and 3 folks that are only doing part of the 4-day. If you are on the fence because you can't make all 4 days but still want to play, let me know. I can work on custom pricing that includes the days you want. I will include you in skins, closest to the pin and hospitality but will remove the prize fund for those days.

For those of you that mailed checks, thanks for that. I will be depositing those when I return the week of Labor Day. For those that have already paid electronically, thank you as well. Gentle reminder for those that are paying electronically but haven't yet.

I'd like to try and get this mostly wrapped up by September 15th so I can start giving the courses approximate numbers for each day of the event.

Reach back with any questions.
