

Twin Lakes does not have a current Course/Slope Rating issued by the Alabama Golf Association and a rating evaluation is not, as of this date, scheduled.

Accordingly, Course/Slope rating numbers on the current scorecard, in the BEGA Database, or on any other medium are not valid for handicapping consideration.

Also, since the course does not have a current Course/Slope Rating, Twin Lakes scores are not acceptable for handicap purposes.

The absence of a current Course/Slope Rating does not prevent play at Twin Lakes; however, suggest BEGA members be cautioned not to enter Twin Lakes scores in their handicap system.
